Subject: Questions for FieldTurf, today at 2:00
Attachments: Questions for Installers- FieldTurf.docx

Hi,

Attached are questions we will be using to talk to Darren Gill. Most of them are the same as the ones we used for Sprinturf, but Chris and I also thought of some new ones, e.g.,:

- the product lines are different for the two installers and that impacted a few questions;
- we learned from Rom Reddy about fields with domes and we focused a question on installation/maintenance practices that may be different in comparison to strictly outdoor or strictly indoor fields;
- we also introduced a few questions on who FieldTurf's suppliers of cryo material are and levels of technology associated with cryogenic processing (we know from Mike Tarantino that FieldTurf definitely installs fields with cryo material, FieldTurf also holds the largest share of fields, yet there only appears to be one *major* cryo processor - [REDACTED] **Ex. 5 Deliberative Process (DP)** [REDACTED] if Darren Gill can give us more information, we might consider someone other than [REDACTED] **Ex. 5 Deliberative Process (DP)** [REDACTED] Ex. 3 [CERCLA section 104(e)(7)/(42 USC 9604(e)(7))] for our last tour, yet.)
